

**Key Stage 1 level:** Grimsby Town centre will be changing to improve on our open spaces and help to connect different communities who come to Top Town to see, meet, and play in our own Haven! This exciting opportunity to work with Our Big Picture to have your work seen, incorporated, and archived into the public art that is being created as part of the multi-million pounds regeneration programme taking place across key parts of town. Get involve here and send us your response to [www.ourbigpicture.co.uk/projects](http://www.ourbigpicture.co.uk/projects)

Please upload work via website, social media or group work by (email address below). All work to be included in Our Haven project needs to be in by Mid July 2020.

Inspired by the river Freshney and the nature in the area, can you draw pictures of the wildlife and tell us more about it?

Tell us what type of nature have you seen around the River Freshney, Garth Lane and Riverhead?

Research the history of the site and create colourful drawings of your findings. You might be inspired by the history of Grimsby, Grim and Price Havelock, ship building and the docks.

A willow tree has been preserved and plans for this to be used as wood sculptures around the new site.

What is wood sculpture? How is it made?

Design a sculpture made from willow wood, this can be of animals, birds or come up with a design for other purpose such as signage or even a seating area.

What is conservation? And how can we get involve in keeping the wildlife around?

What can we do to offer a place to nature and protect the current wildlife in the Freshney? i.e. Bug hotels, bat and bird boxes.

### Curriculum Areas

Art & Design Technology, Culture, History, Nature.

### Learning Outcomes

Pupils will:

- Learn about Grimsby and its history.
- Learn about the artist and Public Art.
- Explore Heritage and Legend.
- Discover Nature around the sites.

Produce creative work and explore their own ideas.
